

The next meeting of the Swindon Group of Diabetes UK will be held on **Tuesday 3rd March** at 7.15 pm at the Broadgreen Centre, Salisbury Street, Swindon SN1 2AN.

Our guest will be **Jeff Liu** from the University of Oxford. He is part of a project called **Humango**, initiated to help lifestyle and diet management for Type 2 diabetes by taking successful diet plans shared by individuals to manage their condition and making these readily accessible outside the clinic.

His team also seek to understand what other useful tools they could create for people with Type 2 diabetes – and he will bring some '**diabetes-friendly bubble tea**' they are working on as snacks.

The meeting is open to anyone interested in diabetes and/or its management, and admission is **free**. A selection of **Information Leaflets** will be available as well as loans from the Group's library of diabetes **Reference Books**. Light refreshments will be served.

Further details are available from Matthew Spencer on **851229** or via <http://swindon.diabetesukgroup.org> or at www.swindondiabetes.co.uk.

Our vision is a world where diabetes can do no harm.
